

13 a 15 de agosto
2015 | Rio de Janeiro | RJ

Brazilian Society of Hypertension
Scientific Sessions 2015
August 13-15, 2015

FINAL PROGRAM

8:00 - 9:00		THURSDAY, 13 AUGUST 2015
ROOM 1	<p><u>How-to Session I - <i>Blood Pressure Measurements</i></u> MODULE 1: Office BP measurement Angela Pierin</p>	
ROOM 2	<p><u>How-to Session II - <i>Hypertension in Primary Care</i></u> Joint Session SBH - Brazilian Society of Family Medicine MODULE 1 - Moderators: <i>Rafael Aron Abitbol (RJ) e Lucélia Magalhães (BA)</i> 1. Which are the epidemiological data about hypertension in the last years? Frida Plavnik (SP) 2. How to confirm the diagnosis and to classify hypertension in clinical practice? Sergio Kaiser (BA) 3. When to suspect white-coat hypertension and masked hypertension without using ABPM? Lilian Soares da Costa (RJ) 4. Discussion</p>	
ROOM 3	<p><u>CURSO 3 - <i>Physical Activity and Blood Pressure</i></u> MODULE I - Moderators: <i>Claudia Forjaz (SP) e Wallace Monteiro (RJ)</i> 1. Risks and benefits of aerobic exercise in hypertensive subjects Katia de Angelis (SP) 2. Risks and benefits of strength exercise in hypertensive subjects Andreia Queiroz (MG) 3. Discussion</p>	
9:00 - 10:30		THURSDAY, 13 AUGUST 2015
ROOM 1	<p><u>International Society of Hypertension (ISH) and SBH Joint Session I - Young Investigators Oral session</u> Area: <i>Experimental Hypertension - Moderators: Rhian Touyz and Mario Cesaretti</i> 1. Effects of ghrelin infusion on cardiac energy metabolism in experimental model of obesity Luciane da Silva Vieira 2. Analysis of the hemodynamic parameters response to tyramine infusion after physical training in spontaneously hypertensive rats Octávio Barbosa Neto 3. Antidiabetic, antiinflammatory and antioxidant effects of euterpe oleracea mart. (açai) extract in type 2 diabetic rats. The exercise training potentiates these effects? Graziele Freitas de Bem 4. Cardioprotection induced by physical training in heart failure depends on the preservation of vagal preganglionic neurons and on the parasympathetic activity Marcelo Hiro Akiyoshi Ichige 5. Hypertension changes the ventilatory pattern and increases purinergic p2x7 receptor expression in the lung and the activity of ubiquitin-proteasome system in rat diaphragm Pamella Ramona Moraes de Souza 6. MicroRNA selection and target protein involved with the cardiac function of infarcted rats in response to aerobic training Stéphano Freitas Soares Melo 7. The effect of perivascular adipose tissue (pvat) on vascular reactivity in animals treated with high-carbohydrate diet Daniela Esteves Ferreira dos Reis Costa 8. Chronic treatment with oral formulation of Ang(1-7) reduces cardiac oxidative damage and improves hemodynamic parameters in spontaneously hypertensive rats Daniela Ravizzoni Dartora 9. Highlights</p>	

ROOM 2	<p><u>International Society of Hypertension (ISH) and SBH Joint Session II - Young Investigators Oral session</u> Area: Clinical Hypertension - Moderators: Ernesto Schiffrin and Mario Fritsch Neves</p> <ol style="list-style-type: none"> Aldosterone in patients with obstructive sleep apnea syndrome and resistant hypertension Gabriel de Souza Mares Systemic and penile microvascular endothelial function and blood pressure evaluation after use of sildenafil citrate in hypertensive patients with erectile dysfunction Valeria Verri Evaluation of endothelial function in resistant hypertensive patients Fabiana Braunstein Bassan Correlation between augmentation index values and peripheral blood pressure Mariana Gomes Lyra Oxygen desaturation in obstructive sleep apnea associated with arterial stiffness markers and subclinical atherosclerosis in elderly hypertensive patients Juliana Magalhães Duarte Matoso Effect of red grape juice supplementation on blood pressure in normotensive and physically active adults Raiane Carmelia Alves Clementino Pyramid training model reduces serum levels of nitric oxide metabolites in obese treated hypertensive elderly women and in non-hypertensive women Erick Henrique Pereira Eches Blood pressure, cardiac autonomic modulation and approximate entropy in overweight and obese young subjects Marilene Gonçalves Queiroz Highlights
ROOM 3	<p><u>International Society of Hypertension (ISH) and SBH Joint Session I</u> <u>Young Investigators Oral session</u> Area: Multiprofessional Approach - Moderators: Cláudia Forjaz (SP) e Márcia Regina Simas (RJ)</p> <ol style="list-style-type: none"> Association of serum uric acid with adiposity, blood pressure, metabolic profile, and biomarkers of inflammation and oxidative stress Flávia Garcia Castro Combined exercise held in senior citizens fitness center of Rio de Janeiro (ATI-RJ) induces post-exercise hypotension in the elderly Ricardo Gonçalves Cordeiro Cardiovascular risk factors in pre-pubescent students in Angola Amílcar Bernardo Tomé Da Silva Endothelial function improvement after 6-month oral magnesium supplementation in hypertensive women Ana Rosa Cunha Mortality from stroke in Brazil in the last three decades: analysis of the age-period effect and birth cohort Juliano dos Santos Level of salt consumption, knowledge, attitudes and related behaviors in medical students at Agostinho Neto University, Angola Pedro Magalhães Pre-physical activity prevents changes in the balance of angiogenic and apoptotic factors caused by dexamethasone Isley de Jesus Combined physical training reduces inflammation and oxidative stress in menopausal hypertensive rats: role of cardiovascular autonomic modulation Guilherme Lemos Shimojo Ferreira Highlights
10:30 - 11:00	Refreshments and Exhibitions

11:00 - 12:30	THURSDAY, 13 AUGUST 2015
ROOM 1	<p>Joint Session SBH - Brazilian Society of Cardiology Central Theme: Subclinical Cardiovascular Disease Moderadores: Andréa Brandão (RJ) e Mario Fritsch Neves (RJ)</p> <ol style="list-style-type: none"> 1. Increased carotid intima-media thickness Eduardo Barbosa (RS) 2. Reduced ankle-brachial index Fernanda Consolim-Colombo (SP) 3. Left ventricle hypertrophy and diastolic dysfunction Mario Fritsch Neves (RJ) 4. Increased arterial stiffness Marco Antonio Mota Gomes (AL) 5. Discussion
ROOM 2	<p>Joint Session SBH - Brazilian Society of Nephrology Central Theme: Prevention and Treatment of Chronic Kidney Disease Moderators: Cibele Rodrigues (SP) e Roberto Franco (SP)</p> <ol style="list-style-type: none"> 1. How to evaluate renal damage in hypertensive patients? Rachel Bregman (RJ) 2. How to use thiazides and loop diuretics in chronic kidney disease? Cibele Rodrigues (SP) 3. Are there beneficial effects of aldosterone antagonists to renal protection? Roberto Franco (SP) 4. ble blockade of the renin-angiotensin system in chronic kidney disease: useful or harmful? Fernando Almeida (SP) 5. Discussion
ROOM 3	<p><u>Practical Recommendations</u> Diferential nutritional approach to hypertensive subjects - what do we really need to recommend? Moderators: Ana Paula Menna Barreto (RJ) e Regina Helena Marques Pereira (SP)</p> <ol style="list-style-type: none"> 1. Salt substitutes Ana Rosa Cunha (RJ) 2. Probiotics Ana Luísa Faller (RJ) 3. Dietetic nitrate Jenifer d'El-Rei (RJ) 4. Vitamine D supplements Márcia Regina Simas (RJ) 5. Discussion
12:30 - 14:00	THURSDAY, 13 AUGUST 2015
ROOM 1	<p>SATELITE SYMPOSIUM - PFIZER Apixaban for stroke prevention in non-valvar atrial fibrillation Discussing Clinical Situations</p> <p>José Francisco Kerr Saraiva Antônio Carlos Bacelar</p>
ROOM 2	<p>SATELITE SYMPOSIUM - UMAMI</p>

14:00 - 15:30		THURSDAY, 13 AUGUST 2015
ROOM 1	<p><u>Joint Session SBH - Portuguese Society of Hypertension</u> <u>Central Theme: Facts and Myths in Hypertension</u> Moderators: Mario Fritsch Neves (SBH) e José Mesquita Bastos (SPH)</p> <ol style="list-style-type: none"> 1. Masked hypertension: how should be valued? Frida Plavnik (Brasil) 2. Blood pressure variability: myth or reality? José Mesquita Bastos (Portugal) 3. Central blood pressure: useful in clinical practice? Pedro Guimarães Cunha (Portugal) 4. Association between diuretics and calcium antagonists: beneficial or harmful effects? Fernando Pinto (Portugal) 5. Discussion 	
ROOM 2	<p><u>WORKSHOP - Hypertension e Nervous System</u> Moderators: Fernanda Consolim-Colombo (SP) e Osvaldo Kohlmann (SP)</p> <ol style="list-style-type: none"> 1. Revisiting sympathetic nervous system as mechanism of hypertension Vera de Moura Azevedo Farah (SP) 2. Influence of arterial stiffness and blood pressure variability on cognitive function Wellington Bruno Santos (RJ) 3. Relationship between hypertension, multi-vascular dementia and Alzheimer disease Roberto Dischinger Miranda (SP) 4. Secondary prevention of stroke Gil Fernando Salles (RJ) 5. Discussion 	
ROOM 3	<p><u>ROUND TABLE - Opposite effects of cardiovascular disease and aerobic training on neural control, oxidative stress and inflammation</u> Moderators: Angelina Zanesco (SP) e Pedro Paulo da Silva Soares (RJ)</p> <ol style="list-style-type: none"> 1. Central regulation Lisete Michelini (SP) 2. Autonomic regulation Hélio César Salgado (SP) 3. Cardiac and skeletal muscle adaptations Patricia Chakur Brum (SP) 4. MicroRNAs Edilamar Menezes de Oliveira (SP) 5. Discussion 	
15:30 - 17:00	Refreshments and Exhibitions Poster Presentations	
17:00 - 18:00	THURSDAY, 13 AUGUST 2015	
ROOM 1	<p><u>PROS AND CONS SESSION I</u> Lowering blood pressure, a drug-independent effect, is the most important in the treatment of hypertension? Moderator: Celso Amodeo (SP) PROS: Wille Oigman (RJ) CONS: Décio Mion (SP)</p>	
ROOM 2		
ROOM 3	<p><u>PROS AND CONS SESSION II</u> The metabolically healthy obese holds a lower cardiovascular risk than the obese with metabolic dysfunction? Moderator: Sérgio Kaiser (RJ) PROS: Heno Lopes (SP) CONS: Eliane Lopes Rosado (RJ)</p>	
THURSDAY, 13 AUGUST 2015		

18:00 - 18:30	OPENING CEREMONY
18:30 - 19:00	KEYNOTE LECTURE - Managing Hypertension: Past, Present and Future <i>Prof Dr Rhian Touyz - President of the International Society of Hypertension</i>

8:00 - 9:00	FRIDAY, 14 AUGUST 2015
ROOM 1	How-to Session I - Blood Pressure Measurements MODULE 2: Ambulatory Blood Pressure Monitoring Moderators: <i>Décio Mion (SP) e Fernando Nobre (SP)</i>
ROOM 2	How-to Session II - Hypertension in Primary Care <u>Joint Action SBH - Brazilian Society of Family Medicine</u> MODULE 2: Moderators: <i>Roberta Coelho (RJ) e Francisco Habermann (SP)</i> 1. How to do the minimum and specific additional assessment in hypertensive patients? <i>Ronaldo A. O. Curi Gismondi (RJ)</i> 2. How to assess the global cardiovascular risk in hypertensive patients? <i>Lucélia Magalhães (BA)</i> 3. How the hypertensive patients benefit from the network of primary health care? <i>Michael Duncan (RJ)</i> 4. Discussion
ROOM 3	How-to Session III - Physical Activity and Blood Pressure MODULE 2 - Moderators: <i>Katia de Angelis (SP) e Sandra Lia do Amaral (SP)</i> 1. Evaluation of hypertensive patients for exercise training <i>Claudia Forjaz (SP)</i> 2. Nutritional considerations involved in hypertension and exercise <i>Marcia Gowdak (SP)</i> 3. Discussion
9:00 - 10:30	FRIDAY, 14 AUGUST 2015
ROOM 1	<u>MEETING THE SPECIALISTS</u> Hypertension in special situations Moderators: <i>José Márcio Ribeiro (MG) e Heno Ferreira Lopes (SP)</i> 1. The elderly and the very elderly hypertensive <i>Roberto Dischinger Miranda (SP)</i> 2. The hypertensive patient with erectile dysfunction <i>Valter Javaroni (RJ)</i> 3. How to evaluate cardiovascular risk? <i>Ronaldo A. O. Curi Gismondi (RJ)</i> 4. The obese individual with obstructive sleep apnea <i>Wille Oigman (RJ)</i> 5. Discussion
ROOM 2	<u>WORKSHOP - Renin-angiotensin system</u> Moderators: <i>Lisete Michelini (SP) e Edilamar Menezes de Oliveira (SP)</i> 1. Renin-angiotensin-aldosterone system, inflammation and vascular remodeling <i>Daniel Arthur Barata Kasal (RJ)</i> 2. Angiotensin converting enzyme isoforms and correlations <i>Dulce Helena Casarini (SP)</i> 3. The role of physical training <i>Maria José Campagnole-Santos (MG)</i> 4. Relationship between renin-angiotensin system and autonomic nervous system <i>Maria Claudia Costa Irigoyen (SP)</i> 5. Discussion

ROOM 3	<p><u>WORKSHOP SBH - IASH</u> Redação e submissão de artigo científico Moderadores: <i>Ana T. Palei e Maria Claudia Irigoyen</i></p> <p>1. Writing a manuscript (30 min) - Dr Elizabeth Muxfeldt (Brazil)</p> <ul style="list-style-type: none"> • What are the study aims • Stating the hypothesis to be tested • How to write a methods section • How to write a results section • How to write an introduction • How to write a discussion • How to report the bibliography • How to write an abstract • Choosing a strong title <p>2. Submitting and resubmitting a manuscript (25 min) - Dr Ernesto Schiffrin (Canada)</p> <ul style="list-style-type: none"> • How to choose a scientific journal • How is the process of submission • How to write a response letter to the reviewers • How is the process of resubmission <p>3. The peer review process (25 min) - Dr Curt Sigmund (USA)</p> <ul style="list-style-type: none"> • What is the peer review process • How works the peer review process • How to critically analyze a manuscript • What to report to the editor and to the authors <p>4. Discussion (10 min)</p>
10:30 - 11:00	<i>Refreshments and Exhibitions</i>
11:00 - 12:30	FRIDAY, 14 AUGUST 2015
ROOM 1	<p>Joint Session SBH - Argentine Society of Hypertension and Latin-American Society of Hypertension Central Theme: Metabolic Syndrome Moderators: Mario Fritsch Neves (SBH), Fernando Filippini (SAHA)</p> <p>1. Metabolic evolution of humans: from the caves to the era of information technology <i>Fernando Filippini (Argentina)</i></p> <p>2. How to identify the insulin-resistant patient in clinical practice? <i>Martin Salazar (Argentina)</i></p> <p>3. How to set the best criteria for metabolic syndrome? <i>Eduardo Barbosa (Brasil)</i></p> <p>4. Which are the best therapeutic combination in the treatment of metabolic syndrome? <i>Oswaldo Kohlmann (Brasil)</i></p> <p>5. Discussion</p>
ROOM 2	<p><u>ROUND TABLE - Resistant hypertension</u> Moderator: Gil Fernando Salles (RJ)</p> <p>1. Resistant hypertension or non-compliance, how to evaluate? <i>Lilian Soares da Costa (RJ)</i></p> <p>2. ABPM is obligatory for diagnosis and follow-up of resistant hypertension? <i>Elizabeth Muxfeldt (RJ)</i></p> <p>3. When do we need to investigate and to treat obstructive sleep apnea in patients with resistant hypertension? <i>Gil Fernando Salles (RJ)</i></p> <p>4. Should we still consider renal denervation as therapeutic option for patients with resistant hypertension? <i>Flavio Borelli (SP)</i></p> <p>5. Discussion</p>

ROOM 3	<p>ROUND TABLE - Endothelial function Moderadores: Antonio Claudio Lucas da Nóbrega (RJ) e Maria José Campagnole-Santos (MG)</p> <ol style="list-style-type: none"> The role of PPAR gama activation for the vascular function Curt Sigmund (EUA) Effects of nutrients Regina Helena Marques Pereira (SP) Effects of exercise Angelina Zanesco (SP) Effects of cardiovascular drugs Eduardo Tibiriçá (RJ) Discussion
12:30 - 14:00	FRIDAY, 14 AUGUST 2015
ROOM 1	<p>SATELITE SYMPOSIUM COCA-COLA Sodium intake: challenges in reducing consumption - Carlos Scherr and Raquel Botelho (Brazil) Moderator: Maria claudia Irigoyen (Brasil)</p>
ROOM 2	
ROOM 3	<p>NATIONAL HYPERTENSION LEAGUE MEETING Francisco Habermann (SP)</p>
14:00 - 15:00	FRIDAY, 14 AUGUST 2015
ROOM 1	<p>SPECIAL TOPICS - Early vascular aging (EVA) in hypertension Moderators: Mario Fritsch Neves (RJ) e Dulce Helena Casarini (SP)</p> <ol style="list-style-type: none"> Vascular biology of ageing-implications in hypertension Rhian Touyz (United Kingdon) Genomic instability: a causal mechanism for vascular aging Anton J. M. Roks (The Netherlands) Arterial stiffness as a biomarker of early vascular aging Pedro Guimarães Cunha (Portugal) Discussion
ROOM 2	<p>SPECIAL TOPICS - Secondary hypertension - clinical presentation and investigation Moderator: Andréa Brandão (RJ)</p> <ol style="list-style-type: none"> Primary hyperaldosteronism Leonardo Vieira (RJ) Renovascular hypertension Celso Amodeo (SP) Pheochromocytoma José Fernando Vilela Martin (SP) Discussion
ROOM 3	<p>SPECIAL TOPICS - Integrated treatment of hypertensive patients Moderators: Paulo César Jardim e Angela Pierin</p> <ol style="list-style-type: none"> The most important nutritional recommendations Marcia Gowdak (SP) The main recommendations for exercise Walace Monteiro (RJ) Special attention to the psycho-emotional aspects Aline Sardinha (RJ) The role of the nurse before and after medical consultation Grazia Maria Guerra (SP)
15:00 - 16:30	<p>Refreshments and Exhibitions Poster Presentations</p>

16:30 - 17:00	International Conference President: Mario Fritsch Neves (SBH) State of the Art: Blood pressure lowering in diabetes and chronic kidney disease: goals and strategies Prof. Dr. Ernesto Schiffrin (McGill University - Canada)
17:00 - 18:00	FRIDAY, 14 AUGUST 2015
	<u>CONTROVERSIES IN CLINICAL PRACTICE</u>
ROOM 1	Reviewing anti-hypertensive classes Moderators: Wille Oigman (RJ) e Marcus Malachias (MG) 1. Diuretics: differences between hydrochlorothiazide and clortalidone Oswaldo Kohlmann Jr (SP) 2. Betablockers: several mechanisms in the same drug class Paulo César Jardim (GO) 3. Dihydropyridine calcium channel blockers: characteristics of three generations Fernando Nobre (SP) 4. ACE inhibitors and angiotensin receptor blockers: similarities and differences Andréa Brandão (RJ)
ROOM 2	
ROOM 3	<u>ROUND TABLE - The future in nutritional care for cardiovascular diseases</u> Moderators: Marcia Simas (RJ) e Marcia Gowdak (SP) 1. Nutrigenomics - Personalized nutrition: the relationship between diet and genome Célia Cohen (RJ) 2. Nutrigenetics - interaction between polimorfisms and nutritional approaches Eliane Rosado (RJ) 3. Epigenetics - biomarkers, where are we? Mariana Sarto (RJ) 4. Discussion
18:00 - 19:00	Meeting for SBH members

8:30 - 9:30	SATURDAY - 15 AUGUST 2015
ROOM 1	<u>How-to Session I - Blood Pressure Measurements</u> MODULE 3: Home Blood Pressure Measurement Marco Antonio Mota Gomes (AL)
ROOM 2	<u>How-to Session II - Hypertension in Primary Care</u> <u>Joint Action SBH - Brazilian Society of Family Medicine</u> MODULE 3 - Moderators: José Marcio Ribeiro (MG) e Josiane Lima de Gusmão (SP) 1. Which is the role of each team member in the primary care of hypertensive patients? Angela Pierin (SP) 2. When suspecting secondary hypertension? Flavio Borelli (SP) 3. Which are the current treatment goals? José Marcio Ribeiro (MG)
ROOM 3	<u>How-to Session III - Physical Activity and Blood Pressure</u> MÓDULO 3 - Moderators: Katia de Angelis (SP) e Andreia Queiroz (MG) 1. Exercise recommendations for hypertensives Sandra Lia do Amaral (SP) 2. Exercise compliance Luciana Angelo (SP) 3. Discussion

9:30 - 10:30	SATURDAY, 15 AUGUST 2015
ROOM 1	<p><u>WORKSHOP - Hypertension in women</u> Moderators: Ivan Cordovil (RJ) e Frida Plavnik (SP)</p> <ol style="list-style-type: none"> 1. Metabolic syndrome associated to polycystic ovary syndrome Hugo Miyahira (RJ) 2. Cardiovascular autonomic dysfunction in primary ovarian insufficiency Katia de Angelis (SP) 3. Pathophysiological mechanisms in pre-eclampsia Carlos Eduardo Poli de Figueiredo (RS) 4. Discussion
ROOM 2	<p><u>ROUND TABLE - Cardiovascular Risk</u> Moderators: Fernanda Consolim-Colombo (SP) e Luiz César Nazário Scala (MT)</p> <ol style="list-style-type: none"> 1. Cardiovascular risk factors in Brazil and Latin America Sandra Fuchs (RS) 2. Chronic kidney disease as cardiovascular risk factor Giovanio Vieira da Silva (SP) 3. New biomarkers of cardiovascular risk Thiago de Souza Veiga Jardim (GO) 4. Discussion
ROOM 3	<p><u>ROUND TABLE - Nursing's contribution to the control of hypertension</u> Moderators: Angela Maria Geraldo Pierin (SP) e Grazia Maria Guerra (SP)</p> <ol style="list-style-type: none"> 1. The use of educational technologies for patients and for developing health professionals in the area of hypertension Grazia Maria Guerra (SP) 2. The measurement of blood pressure by nurse attenuate the white coat phenomena? Josiane Lima de Gusmão (SP) 3. Compliance to anti-hypertensive treatment: role of the nurse Angela Maria Geraldo Pierin (SP) 4. Discussion
10:30 - 11:00	Refreshments and Exhibitions
11:00 - 12:30	SATURDAY, 15 AUGUST 2015
ROOM 1	<p><u>Case-based Learning</u> Hypertensive urgencies and emergencies Moderators: Gil Fernando Salles (RJ) e José Fernando Vilela Martin (SP)</p> <ol style="list-style-type: none"> 1. Hypertensive crisis in asymptomatic outpatient and in preoperative setting Luiz César Nazário Scala (MT) 2. Marked elevation of blood pressure in patients with acute stroke José Fernando Vilela Martin (SP) 3. Marked elevation of blood pressure in patients with acute coronary syndrome Thiago de Souza Veiga Jardim (GO) 4. Clinical manifestation and treatment of pre-eclampsia and eclampsia Carlos Eduardo Poli de Figueiredo (RS) 5. Discussion

<p>ROOM 2</p>	<p><u>World Hypertension League</u> 11:00-11:15 - Blood pressure screening and measurement around the world Marcelo Orias (WHL) 11:15-11:30 - Programa da WHL de medida da pressão arterial no Brasil Luiz Bortolotto (SP) 11:30 - 12:30 WORKSHOP - Controversies in Hypertension Guidelines Moderators: Fernando Almeida (SP) e Roberto Franco (SP) 1. 2013 ESC/ESH Guideline Luiz Bortolotto (SP) 2. 2014 JNC-8 Flávio Fuchs (RS) 3. What should change in the next Brazilian guidelines? Marcus Malachias (MG)</p>
<p>ROOM 3</p>	<p><u>ROUND TABLE - EXERCISE</u> Current perspectives about exercise in hypertension Moderators: Andreia Queiroz (MG) e Patrícia Brum (SP) 1. Hyper-reactive response to exercise: mechanisms and implications Antônio Claudio Nobrega (RJ) 2. Exercise protocols: influence on post-exercise hypotension Paulo Farinatti (RJ) 3. Mechanisms of post-exercise hypotension Claudia Forjaz (SP) 4. Aerobic training and cardiovascular reflex control Pedro Paulo da Silva Soares (RJ) 5. Discussion</p>
<p>12:30 - 13:00 ROOM 1</p>	<p>AWARDS 1. International Society of Hypertension for ORAL presentations 2. AMIL - ANTONIO FELIPE SANJULIANI for POSTER presentations</p> <p>CLOSING CEREMONY</p>
